DETAILED ACTION

1. This office action is in response to the Amendment filed March 24, 2008.

Accordingly, claim 101 was amended, claims 1-100, 102 and 103 were cancelled, and new claims 104-108 were added. Currently, claims 101 and 104-108 are pending in this application.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

Claim 101: in line 2, after "an image;" delete "and"; and in line 12, after "emitted from the" delete "an".

Allowable Subject Matter

3. Claims 101 and 104-108 are allowed.

The following is an examiner's statement of reasons for allowance: none of the prior art of record fairly suggests or shows all of the limitations as claimed.

Specifically, re claim 101, none of the prior art of record discloses, in combination with other limitations as claimed, a portable electronic device comprising a cover member comprising a first display device for displaying an image; a second display device comprising a touch input tablet; a third display device; a CPU electrically

connected with the second display device; and a flash memory electrically connected with the CPU,

wherein the cover member and the second display device are attached to each other to allow opening and closing with the third display device therebetween,

wherein the first display device and the second display device are an EL display device, and

wherein the third display device is a reflection liquid crystal display device, wherein the third display device is made to display by irradiating light emitted from the EL display device.

The most relevant reference, US 6,158,884 to Lebby et al. (Lebby), fails to disclose or suggest that the third display device is a reflection liquid crystal display device, wherein the third display device is made to display by irradiating light emitted from the EL display device. As shown in Figs. 5 and 6, Lebby discloses a portable electronic device 10" comprising a cover member 52 comprising a first display device 46 for display an image; a second display device 42; and a third display device 44, wherein the cover member 52 and the second display device 42 are attached to each other to allow opening and closing with the third display device 44 therebetween and wherein the first display device 46 and the second display device 42 are an EL display device (col. 5, line 52 through col. 6, line 52). However, Lebby only discloses that the third display device 44 is a liquid crystal display device (col. 6, lines 8-21 and 47-52).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2871

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
